

Introduction

The sports premium funding was introduced by the DFE in March 2013 to improve the provision of physical education across all primary schools in England. The aim of the premium is to help primary schools to achieve the government’s commitment to ensuring that children and young people have access to at least 60 minutes of sport and physical activity per day, with a recommendation of 30 minutes of this delivered during the school day. Schools have the flexibility to use the funding in the way that works best for their pupils. Schools are required to publish details of how the funding is spent and the impact it has on pupil PE and sport participation and attainment.

Our PE Objectives at TJLS
